MEMO PERD #01/98
February 3, 1998

TO: All Department Heads
Designee for Alcohol and Drug Testing

FROM: Sharon P. Murphy, Director
Department of Personnel

SUBJECT: TESTING FOR CONTROLLED SUBSTANCES

As you know, NRS 284.4066 provides for the pre-employment drug testing of applicants for positions affecting public safety. It is the appointing authority's responsibility to identify the specific positions in his or her agency which affect public safety subject to the Personnel Commission's approval. The attached list reflects all the classes, as well as individual positions, which have been approved for drug testing by the Personnel Commission.

We are asking you to review this list, verify that these classes should continue to be designated for pre-employment drug testing, and identify any new classes or positions which you believe should be added. In most cases, all positions in a particular class will be identified for inclusion. However, if only certain positions within a class are identified as affecting public safety, please provide the position number, class code and title for the position, and a short reason why the position is appropriate for inclusion in the testing plan.

Changes to this list should be submitted to Phil Hauck by February 18, 1998, for consideration and approval at the March Personnel Commission meeting. If you have any questions, please call him at 687-4053.

Thanks again for all your help.
